## Job Announcement

### About Pearson Packaging System

Grow alongside Pearson, as we disrupt the packaging industry with innovative ways of solving our customers' automation needs. Challenge the status quo, apply new ways of thinking and help us dominate the secondary packaging automation market.

With our portfolio of case erectors, robotic top-loaders, sealers and robotic palletizers, Pearson Packaging Systems helps a diverse set of high-volume manufacturers and distributors in the food, beverage, personal care, household and industrial chemical, pharma and distribution industries overcome labor cost and supply, safety, quality and throughput challenges. Since our inception, nearly 70 years ago we have deployed over 23,000 machines.

To be able to deliver on our promise to our customers, maintain our values of integrity, service, and continuous improvement, and sustain growth rates above industry expectations, we look for people who care – care to make a difference and go the extra mile to exceed customer expectations, both internally and externally.

---

### Buyer/Planner

**Salary Range: \$30.40 to \$36.59/hr**

#### Your role with us:

As a Buyer Planner for Pearson Packaging Systems, you will be responsible for procuring parts and managing inventory re-orders for min/max Kanban items. You will analyze stock levels, suggest adjustments to min/max levels, and oversee supplier performance and quality to ensure on-time delivery for customers. Additionally, you will support daily inventory functions to maintain operational efficiency.

You will work directly with the Aftermarket Sales Team to process AMS orders, coordinate RTV returns from machines, and ensure timely supplier pickups for approved RTVs.

#### Does this sound like you?

---

*We are  
hiring*

**You have strong analytical skills and are data driven.** You have a keen eye for detail and you are proficient in reviewing and analyzing data inputs as an integral part of your role. You ensure accuracy and precision in everything you do.

**You are collaborative and a team player.** You demonstrate a positive attitude in your work and share the values of our organization. You enjoy collaborating both with your internal team and with other teams at Pearson to support production.

**You work well under pressure.** You assess the urgency and importance of various tasks, strategically allocating your time and resources to ensure deadlines are met without compromising quality.

**You can navigate through change.** You see change as an opportunity to improve rather than an obstacle to overcome. You can modify solutions to quickly adapt to customer requests.

## How you will contribute to our growth:

By sourcing and purchasing automation components for stock and aftermarket sales while ensuring accuracy and compliance with company policies.

Through monitoring inventory levels using ERP/MRP systems, conducting audits, and collaborating with teams to forecast material needs and maintain stock accuracy.

By building and maintaining strong supplier relationships to ensure quality and on-time delivery while proactively addressing vendor performance.

Through analyzing inventory data to identify purchasing trends, cost-saving opportunities, and process improvements using an analytical approach.

With a commitment to compliance, ensuring all purchasing activities adhere to company policies, legal regulations, and quality standards.

## What you will need to succeed:

- Bachelor's degree in supply chain management, business administration, or a related field. Equivalent years of experience may be considered.
- 2-4 years of experience in procurement, inventory, or supply chain roles, preferably in the automation or manufacturing industry.
- Proficiency in ERP systems and inventory management software.
- Proficiency in Microsoft Office.
