## Job Announcement

### About Pearson Packaging System

Grow alongside Pearson, as we disrupt the packaging industry with innovative ways of solving our customers' automation needs. Challenge the status quo, apply new ways of thinking and help us dominate the secondary packaging automation market.

With our portfolio of case erectors, robotic top-loaders, sealers and robotic palletizers, Pearson Packaging Systems helps a diverse set of high-volume manufacturers and distributors in the food, beverage, personal care, household and industrial chemical, pharma and distribution industries overcome labor cost and supply, safety, quality and throughput challenges. Since our inception, nearly 70 years ago we have deployed over 23,000 machines.

To be able to deliver on our promise to our customers, maintain our values of integrity, service, and continuous improvement, and sustain growth rates above industry expectations, we look for people who care – care to make a difference and go the extra mile to exceed customer expectations, both internally and externally.

### IT Intern

**Salary: \$22/hour**

#### Your role with us:

The IT Intern will work closely with our IT department to support various technology initiatives and ensure the smooth operation of our systems. This position offers an excellent opportunity for hands-on experience in a dynamic manufacturing environment.

#### Does this sound like you?

**You're eager to apply your technical skills.** You've developed a solid understanding of computer hardware, software, and networking. You're excited to dive into troubleshooting IT issues and supporting a team's tech needs.

---

*We are  
hiring*

**You are a strong communicator.** You can explain complex technical issues in a way that's easy for others to understand, and you work well with colleagues across various departments.

**You thrive under deadlines.** Fast-paced environments and critical IT projects excite you. You can manage priorities, stay organized, and work efficiently to resolve tech issues on time.

**You're adaptable and solution-oriented.** When technology needs to shift, you think critically to find creative ways to address challenges and improve systems.

## How you will contribute to our growth:

You will support the IT team by providing technical support for hardware, software, and network-related issues, ensuring smooth operations throughout the company. You'll assist in system administration tasks, such as maintaining servers, networks, and security systems.

You will also help with IT projects, including system upgrades, migrations, and new software implementations, assisting in testing and the overall project process.

## What you will need to succeed:

- Strong problem-solving and troubleshooting skills.
- Excellent communication and interpersonal skills.
- Ability to learn quickly and work effectively both independently and as part of a team.
- Basic understanding of computer hardware, software, and networking concepts.
- Currently pursuing a degree in Information Technology, Computer Science, or a related field.
- Familiarity with operating systems (Windows, Linux) and productivity software (Microsoft Office).

## What we offer you:

We provide valuable hands-on experience in a fast-paced manufacturing environment, with the opportunity to work alongside an experienced IT team. You'll gain exposure to diverse technologies and develop your technical skills through mentorship and collaboration. This internship offers career development opportunities, with the possibility of transitioning to a full-time role upon graduation. Additionally, we offer competitive compensation, ensuring you're rewarded for your contributions. We also offer housing assistance if you are not local to the Spokane Area.
